## Education

**Bachelor of Computer Science Major, Earth Science Minor, 4<sup>th</sup> year standing**

**Expected Completion: December 2025**

Carleton University, Ottawa Ontario Canada

- Awarded the Award of Excellence Scholarship and Entrance Scholarship for having an excellent academic standing.

## **Relevant Coursework Completed:**

Introduction To Computer Science, Discrete Structures, Systems Programming, Web Applications, Abstract Data Types and Algorithms, Introduction to Software Engineering, Operating Systems, Object-Oriented Software Engineering, Elementary Calculus, Linear Algebra

## Skills

**Programming:** Python, Java, C, C++, JavaScript, HTML, CSS, Node.js, SQL, Scheme, Prolog.

**Technical skills:** Microsoft Office, Canva, Powershell, MongoDB, ImageJ.Js, Roboflow, DeeplabCut, Conda, Zen, Git, Power BI, IntelliJ, VS Code, GEdit Text Editor, Notepad, Atom, Windows OS, Linux

**Soft skills:** Detail Oriented, Effective communication (verbal and written), Problem Solving, Resilient, Teamwork, Multitasking

**Languages:** English (Fluent), French (Beginner)

## Experience

**Biology AI Research Intern: Carleton University**

**May 2024-August 2024**

- Leveraged my passion for global food security to train AI to monitor cricket farms and inform cricket livestock management decisions.
- Gathered, analyzed and trained data in a laboratory to inform cricket livestock management decisions.
- Developed Computer Vision models to analyze how cricket size development correlates to different rearing conditions.
- Utilized **Microsoft Excel, Zen 3.6 blue edition, DeeplabCut, Conda, ImageJ.JS** and **Roboflow** to label and annotate image data.

**Data Analyst: TELUS**

**August 2023-March 2024**

- Conducted comprehensive research and evaluation tasks, ensuring the precision and relevance of data.
- Utilized search engines, online maps, and website information to meticulously verify and compare data.
- Regularly underwent occasional quality assurance checks to uphold data quality and accuracy standards

**Marketing Representative: Wizeprep**

**August 2022-December 2023**

- Demonstrated effective communication, exceptional customer service and marketing skills in the promotion of a course preparation resource to students.
- Successfully contributed to Wizeprep's recognition through strategic flyer and poster distribution.

## Projects

**Full Stack Art Exhibition Database**

**December 2023**

- Employed **OpenStack, Pug, JavaScript, CSS, MongoDB Database, JSON, Express** and **Sessions** to create a dynamic Open Gallery web application providing an exhibition space for artists and connecting them with patrons in the community.
- Designed to accommodate patrons and artists user types. The application facilitates the addition of new artworks and workshops for artists, while patrons can browse artworks, add reviews and likes, follow artists, receive notifications, and participate in artist workshops.
- Utilized both client-side and server-side technologies for seamless functionality.
- Achieved a grade of 91% for this project.

**Front end Client Shopping Simulation**

**October 2023**

- Applied expertise in **HTML/CSS** and **JavaScript** using Visual Studio Code to conceptualize, develop and design a dynamic web page that enables users to browse office supplies from multiple vendors, add items to an order, remove items and place an order.
- The interface facilitated user interaction, allowing seamless browsing of office supplies from various vendors, addition and removal of items from an order, and order placement.
- Grade of 100% received for this project.

## Accomplishments

- Awarded Ontario Scholar Award by the Ontario Ministry of Education (2021)
- Received Perseverance Character award (2021)
- Received Resilience Character Award (2018)
- First Place at RoboRave SumoBot Robotics Competition (2018)

## Extracurricular Activities

**Paul Menton Centre Notetaker**

**September 2023-Present**

- I volunteered to take comprehensive notes for students with disabilities.

**First Year Connections Mentor**

**April 2022- October 2023**

- Guided first-year students in transitioning to Carleton University by answering their questions and providing campus resources.
- Contributed to their successful assimilation and ensured a positive start to their university experience.

**Fall Orientation Facilitator**

**April 2022- September 2022**

- Leveraged strong communication skills to welcome new students to Carleton, run events, and provide essential information about the university resources.

**Carleton Computer Science Society**

**September 2021-Present**

- Utilized and enhanced my programming and analytical skills while networking with other computer science students at Carleton.
